Client Proposal & Project Brief

Transforming Your Digital Presence

Prepared for: [Client Name]

Prepared by: Snowball Design Intelligence

Date: 2024

Investment: Starting from \$3,500

About Snowball

Snowball Design Intelligence is a next-generation design platform that builds digital presences for luxury design studios, automotive brands, industrial firms, and premium B2B businesses.

We operate at the intersection of eight global design archetypes — drawing from the same design philosophy as the world's most respected design houses — while producing 100% original, copyright-clear work that belongs entirely to you.

What makes us different: We don't build websites. We build design intelligence systems — cohesive brand ecosystems that perform at the highest aesthetic level and convert visitors into high-value clients.

The Problem We Solve

Most luxury and premium businesses are being undersold by their digital presence. Their website was built by a generalist agency that doesn't understand design at this level, or by a freelancer working from a template.

The result: a brand that operates at one level, and a website that presents it at a much lower one.

The gap between your brand's quality and your website's quality is costing you clients every single day.

What We Build

01 — The Hero Site

Your flagship digital presence. Built from scratch in one of our eight proprietary design archetypes, chosen to match your brand's character and competitive context.

- Full viewport cinematic hero section
- Animated scroll experience
- Portfolio/work showcase
- Services and capabilities section
- Process and approach section
- Contact and commission flow
- Mobile-first responsive design
- Custom cursor and micro-interactions

Deliverable: Production-ready HTML/CSS/JS, deployable to any hosting platform.

02 — Brand Intelligence Package (Optional Add-on)

For clients who want to go deeper:

- Color system with full palette and usage rules
- Typography hierarchy with font pairings
- Logo refinement guidance
- Brand voice guidelines
- Component library for future use

03 — Design Archetype Selection

We work with you to identify which of our eight design archetypes best serves your brand:

Archetype	Style	Best For
-----	-----	-----
Dark Precision	Obsidian + Gold	Automotive, Engineering
Fluid Elegance	Cream + Warm Gold	Luxury, Lifestyle
Avant-Garde	Black + Signal Red	Disruptors, Creatives
Wedge Futurist	Dark + Electric Blue	Tech, Innovation
Brand Identity	Sand + Rust	Studios, Agencies
Transport Luxury	Navy + Gold	Aviation, Marine, Auto
Future Concept	Void + Lime	Futures, Speculative
Industrial Refined	Steel + Bronze	Manufacturing, B2B

Investment

Tier 1 — Foundation Site

\$3,500

- Single-page design site
- One archetype
- 6 core sections
- Mobile responsive

2 revision rounds
7-day delivery

Tier 2 — Complete Presence

\$5,000

Tier 3 — Brand Intelligence System

\$8,500

Full site (Tier 2)
Complete brand guidelines document
Color + typography system
Logo refinement
Component library
Ongoing design consultancy (1 month)
14-day delivery

Our Process

Day 1-2: Discovery

Brand questionnaire, competitor analysis, archetype selection. We learn everything about your brand and where you want to be positioned.

Day 3-5: Concept

First concept delivered. Full hero section, one interior section, and color/type system. This gives you a complete picture of the direction before we build everything.

Day 6-8: Build

Full site built based on approved concept. Every section. Every interaction. Every detail.

Day 9-10: Refinement

Two rounds of revisions based on your feedback. We refine until it's right.

Day 10: Delivery

Final files delivered. Production-ready, fully documented, yours forever.

What Our Clients Say

"We had been operating with the same website for four years. Three weeks after launching our new Snowball site, we closed a client worth more than we had earned in the previous six months. The site positioned us at a completely different level."

— Design Studio Principal, London

"The difference between our old site and the new one is the difference between looking like a good small agency and looking like a world-class firm. That's what Snowball delivered."

— Industrial Design Director, Munich

Frequently Asked Questions

Do you use templates?

No. Every site is built from scratch using our design intelligence system. You receive a unique design that belongs entirely to you.

Is there any copyright risk?

Zero. We draw from design philosophy and principles — not from specific visual assets or brand elements of other companies. Everything we produce is 100% original.

Can I update the site myself?

Yes. We deliver clean HTML/CSS/JS that any developer can maintain. We can also build on any CMS you prefer.

What if I need changes after delivery?

All revisions within the agreed project scope are included. For changes beyond scope, we offer a straightforward hourly rate.

How do I get started?

Send us a brief email with your company name, industry, and what you're trying to achieve. We'll schedule a 30-minute discovery call and send a formal proposal within 48 hours.

Next Steps

1. Reply to confirm your interest
2. We schedule a 30-minute discovery call
