

Complete Outreach System — All 5 Verticals

**NexusLogix | MedCore | VaultEdge | ConstructCore |
LexBridge**

PART 1: VAULTEDGE — SaaS / FinTech Outreach

5-Touch Cold Email Sequence

Email 1 — The Cold Open

Subject: Free SaaS go-to-market report for [Company]

Hi [First Name],

I put together a 30-page go-to-market and compliance report specifically for Series A/B SaaS companies in [their vertical].

It covers SOC 2 compliance timelines, investor deck frameworks, and the exact documentation stack that gets deals closed faster.

No pitch — happy to send it over if useful.

Worth a look?

[Your Name]

Email 2 — The Follow-Up (Day 4)

Subject: Re: Free SaaS go-to-market report

Hey [First Name],

Circling back on this — the report covers the three documentation gaps we see killing SaaS deals in due diligence right now:

1. Incomplete SOC 2 / security posture documentation
2. Missing go-to-market playbook for enterprise sales
3. Investor deck that doesn't answer the \$10M question

Takes about 10 minutes to read. Want me to send it?

[Your Name]

Email 3 — The Value Bomb (Day 8)

Subject: How [Competitor] closed their Series B in 19 days

[First Name],

Most SaaS companies spend 60-90 days in due diligence because their documentation package isn't enterprise-ready.

We build the complete package — compliance report, investor deck, and explainer video — in 48 hours.

The last company we worked with cut their due diligence timeline from 67 days to 19 days.

Happy to send over a sample of what we built for them.

[Your Name]

Email 4 — The Direct Ask (Day 14)

Subject: 48-hour turnaround on your full asset package

[First Name],

Direct ask:

We can build your complete documentation package — 30-page compliance/GTM report, 12-slide investor deck, and 60-second explainer video — in 48 hours for \$2,500.

If you're raising in the next 6 months or pitching enterprise buyers, this pays for itself in the first meeting.

Worth a 15-minute call?

[Your Name]

Email 5 — The Breakup (Day 21)

Subject: Closing your file

[First Name],

I'll stop following up after this — I know your inbox is a warzone.

If documentation infrastructure ever becomes a priority, the offer stands: complete asset package in 48 hours, \$2,500.

Either way, the free report is yours. Just say the word.

[Your Name]

VaultEdge LinkedIn Scripts

Connection Request (300 chars):

"Hi [Name] — I work with Series A/B SaaS founders on compliance and investor documentation. Built something specific to [their vertical] you might find useful. Happy to connect."

Post-Connect DM:

"Thanks for connecting [Name]. Quick question — are you currently in fundraising mode or building out your enterprise sales motion? Working on something that might be relevant."

Follow-Up DM (Day 3):

"Hey [Name] — built a 30-page SaaS go-to-market report covering SOC 2 timelines, investor deck frameworks, and enterprise sales documentation. Happy to share if useful — no strings attached."

PART 2: CONSTRUCTCORE — Construction Outreach

5-Touch Cold Email Sequence

Email 1 — The Cold Open

Subject: Free construction compliance package for [Company]

Hi [First Name],

I put together a free subcontractor onboarding and OSHA compliance documentation package for mid-size general contractors in [their region].

Most GCs we talk to are losing 3-6 weeks per project just on documentation friction. This package cuts that to under 7 days.

No pitch — want me to send it over?

[Your Name]

Email 2 — The Follow-Up (Day 4)

Subject: Re: Free construction compliance package

Hey [First Name],

Following up — the package includes:

- Complete subcontractor prequalification checklist
- OSHA safety program templates (top 10 citation categories)

Insurance requirement specifications
Lien waiver framework by state

Takes 15 minutes to implement. Happy to send if useful.

[Your Name]

Email 3 — The Value Bomb (Day 8)

Subject: The \$47,000/week problem most GCs ignore

[First Name],

Project delays caused by documentation gaps cost the average mid-market GC \$47,000 per week.

The fix isn't more staff — it's a documentation system that front-loads compliance before mobilization.

We build the complete system — onboarding protocols, OSHA programs, bonding documentation, and capabilities deck — in 48 hours.

Want to see what we built for a \$25M GC in [their state]?

[Your Name]

Email 4 — The Direct Ask (Day 14)

Subject: 48-hour turnaround on your compliance package

[First Name],

Here's the offer:

Complete construction compliance package — subcontractor onboarding system, OSHA safety programs, bonding documentation, and 12-slide capabilities deck for surety and bank presentations — delivered in 48 hours for \$2,500.

If you're pursuing public work or expanding your bonding capacity, this pays for itself on the first project.

15-minute call this week?

[Your Name]

Email 5 — The Breakup (Day 21)

Subject: Last note from me

[First Name],

Last follow-up — promise.

If compliance documentation ever slows down a project or costs you a bond, the offer stands: complete package in 48 hours, \$2,500.

The free checklist is yours regardless. Just reply "send it."

[Your Name]

ConstructCore LinkedIn Scripts

Connection Request:

"Hi [Name] — I work with GCs and developers on compliance documentation and subcontractor onboarding systems. Built something specific to [TX/FL/GA] contractors you might find useful. Happy to connect."

Post-Connect DM:

"Thanks for connecting [Name]. Are you currently pursuing any public work or trying to increase your bonding capacity? Working on something that might be directly relevant."

PART 3: LEXBRIDGE — Legal/Compliance Outreach

5-Touch Cold Email Sequence

Email 1 — The Cold Open

Subject: Free legal compliance package for [Company]

Hi [First Name],

I put together a free corporate governance and employment law compliance package for mid-market companies in [their industry].

Most growing businesses have 3-5 critical documentation gaps that create serious exposure during M&A, fundraising, or litigation. This package identifies and fixes them fast.

No pitch — happy to send it over.

[Your Name]

Email 2 — The Follow-Up (Day 4)

Subject: Re: Free legal compliance package

Hey [First Name],

Following up — the package covers the five gaps that kill deals in due diligence:

1. Outdated operating agreements / bylaws
2. Unsigned cap table documentation
3. Missing employment handbook policies
4. No data privacy compliance framework
5. Unprotected IP (no assignment agreements)

Happy to send it over — takes 20 minutes to review.

[Your Name]

Email 3 — The Value Bomb (Day 8)

Subject: The documentation gap that killed a \$12M acquisition

[First Name],

Last year, a \$12M acquisition fell apart in due diligence because the target company had no signed IP assignment agreements with their developers.

Three years of product development — legally unowned.

We build the complete governance and IP protection package in 48 hours. It's the documentation stack that gets deals done instead of killed.

Want to see what we built for a similar company?

[Your Name]

Email 4 — The Direct Ask (Day 14)

Subject: 48-hour governance documentation package

[First Name],

Direct offer:

Complete corporate governance and legal compliance package — operating agreement review, employment handbook, privacy policy suite, IP assignment agreements, and NDAs — delivered in 48 hours for \$2,500.

If you're raising capital, pursuing M&A, or just want to sleep better at night, this is the package.

15-minute call this week?

[Your Name]

Email 5 — The Breakup (Day 21)

Subject: Closing your file

[First Name],

Last note from me.

If legal documentation ever creates friction in a deal or exposes you to liability, the offer stands: complete package in 48 hours, \$2,500.

[Your Name]

PART 4: MASTER PROSPECT TARGETING GUIDE

Target Profiles by Vertical

NexusLogix (Logistics)

Title: VP Operations, Director of Logistics, Chief Supply Chain Officer

Company size: 50-500 employees

Geography: TX, FL, GA, OH, IL (high freight volume states)

Trigger events: New DOT regulations, FMCSA enforcement actions, contract awards

Tools: Apollo.io search: "VP Operations" + "Logistics" + 50-200 employees

MedCore (Healthcare)

Title: Chief Compliance Officer, VP Operations, Practice Administrator

Company size: 20-300 employees

Geography: CA, TX, FL, NY, PA (highest healthcare concentration)

Trigger events: CMS rule changes, FDA guidance updates, HIPAA enforcement

Tools: Apollo.io search: "Compliance Officer" + "Healthcare" + Series A/B funded

VaultEdge (SaaS/FinTech)

Title: CEO, COO, Head of Operations, VP Finance

Company size: 10-150 employees

Geography: SF, NYC, Austin, Miami, Chicago (startup hubs)

Trigger events: Funding announcements, SOC 2 certification efforts, enterprise sales push

Tools: Crunchbase: Series A/B funded + SaaS + last 12 months

ConstructCore (Construction)

Title: President, VP Operations, Project Executive, Preconstruction Manager

Company size: \$5M-\$100M revenue

Geography: TX, FL, CA, GA, NC (high construction activity)

Trigger events: Public bid opportunities, bonding expansion, new market entry

Tools: Apollo.io: "General Contractor" + "President" + 50-200 employees

LexBridge (Legal)

Title: CEO, COO, CFO, General Counsel (at companies WITHOUT large legal teams)

Company size: 25-500 employees

Geography: National (legal exposure is universal)

Trigger events: Funding rounds, M&A activity, rapid hiring, regulatory changes

Tools: LinkedIn: "CEO" + company 25-200 employees + recently funded

PART 5: MASTER PRICING MENU — ALL VERTICALS
