

NexusLogix — Full Outreach & Sales System

NexusLogix Cold Outreach Email Sequence

5-Touch Logistics Decision-Maker Campaign

TARGETING PROFILE

Who You're Reaching:

Title: VP of Operations, Director of Logistics, Supply Chain Manager, COO
Company Size: 50-500 employees
Industry: Freight brokerage, 3PL providers, last-mile delivery, cross-border logistics, fleet management
Pain: Compliance burden, carrier onboarding delays, lack of professional documentation
Budget authority: Yes — these titles sign \$2,500-\$10,000 contracts without board approval

Where to Find Them:

LinkedIn Sales Navigator: Filter by title + industry + company size
FreightWaves community
DAT Freight & Analytics network
American Trucking Associations (ATA) member directory
Local Chamber of Commerce logistics committees

EMAIL 1 — THE COLD OPEN (Day 1)

Subject: Free compliance sample for [Company Name]

Hi [First Name],

I put together a 30-page logistics compliance and onboarding report for mid-market carriers and 3PL firms navigating the current FMCSA and DOT regulatory environment.

It covers:

- 2025 FMCSA Hours of Service updates
- Cross-border documentation requirements
- Carrier onboarding workflow templates
- ELD mandate compliance checklists

No pitch — just a useful resource. Want me to send it over?

[Your Name]

NexusLogix Advisory

[Phone] | [Email]

Why this works: Zero ask, maximum value. The report is your foot in the door.

EMAIL 2 — THE FOLLOW-UP (Day 3)

Subject: Re: Free compliance sample for [Company Name]

Hi [First Name],

Just bumping this up — I know logistics ops inboxes move fast.

The compliance report I mentioned covers the updated FMCSA safety fitness determination rules that go into effect later this year. A few firms we've worked with used it to audit their onboarding process and cut carrier qualification time by 40%.

Happy to send it over with no strings attached. Takes 30 seconds to reply.

[Your Name]

Why this works: Adds urgency (new regulations), adds social proof (40% improvement), keeps the ask tiny.

EMAIL 3 — THE VALUE BOMB (Day 7)

Subject: [Company Name] + carrier onboarding — quick thought

Hi [First Name],

Most logistics firms I talk to are losing 2-3 weeks per new carrier onboarding cycle because their documentation is either outdated or inconsistent.

We built a complete onboarding asset kit — compliance report, capabilities briefing, and a narrated workflow explainer — specifically for [their type of firm: 3PL / freight broker / fleet operator].

If you're open to it, I can send you the full sample package (PDF + deck + video) so you can see exactly what it looks like before we talk numbers.

Worth a look?

[Your Name]

Why this works: Names the specific pain (2-3 week delay), presents the full package, soft CTA.

EMAIL 4 — THE CASE STUDY ANGLE (Day 12)

Subject: How a logistics firm cut onboarding time in half

Hi [First Name],

Quick story:

A regional 3PL was spending 3 weeks onboarding each new carrier — chasing documents, reformatting compliance paperwork, re-explaining the same workflow to every new driver and dispatch team.

We built them a complete documentation package: a compliance brief, a capabilities deck, and a 60-second onboarding video. Their onboarding cycle dropped from 21 days to 9.

The entire package was delivered in 48 hours and cost less than one week of a junior ops hire.

I have the sample package ready if you want to see what that looks like for [Company Name].

[Your Name]

Why this works: Story-based, specific numbers, concrete ROI, personalized close.

EMAIL 5 — THE BREAKUP (Day 18)

Subject: Closing the loop on [Company Name]

Hi [First Name],

I've reached out a few times about the compliance and documentation package for logistics firms — I don't want to keep cluttering your inbox if the timing isn't right.

Two quick questions before I close your file:

1. Is documentation and compliance a priority for your ops team right now?
2. Would it make more sense to reconnect in Q3/Q4?

Either way — the free compliance report is still yours if you want it. Just say the word.

[Your Name]

Why this works: Breakup emails get the highest reply rates. The two-question format forces a response.

LINKEDIN OUTREACH SCRIPTS

Connection Request Note (300 char limit):

"Hi [Name] — saw your work at [Company]. I built a free logistics compliance guide covering 2025 FMCSA updates that ops teams are finding useful. Happy to connect and share it."

DM After Connection Accepted:

"Hey [Name], thanks for connecting!

I put together a 30-page compliance and onboarding resource for logistics firms dealing with the new FMCSA regulatory updates — no pitch, just a useful doc.

Also have a capabilities deck template and a 60-second workflow explainer if those are useful for your team.

Want me to send them over?"

DM Follow-Up (3 days later if no reply):

"Hey [Name] — just bumping this up. The compliance doc covers the ELD and HOS updates a lot of ops teams are scrambling on right now. Takes 30 seconds to grab — want it?"

Response to "What do you do?" DM:

"We build complete documentation packages for logistics and supply chain firms — compliance reports, capabilities decks, onboarding videos. Basically everything a mid-market ops team needs but doesn't have the headcount to produce in-house.

We deliver a full package in 48 hours. Most clients use it to close carriers faster, pitch enterprise shippers, or prep for funding rounds.

I have a sample package built out for logistics firms — want to take a look?"

OBJECTION HANDLING SCRIPTS

"We already have documentation"

"Totally understand — most firms do. The difference is usually consistency and compliance currency. With the 2025 FMCSA updates, a lot of existing docs are technically outdated. Happy to send the sample so you can benchmark against what you have — no commitment."

"We don't have budget right now"

"No problem at all. The sample package is free — I'm not asking for anything right now. If it's useful, we can talk about a branded version when the timing works. Want me to send it?"

"We use an internal team for this"

"That makes sense. A lot of our clients actually use us as overflow — their team handles the strategic stuff and we handle the documentation heavy lifting. Worth having in your back pocket. Want the sample?"

"How much does this cost?"

"The full branded package — compliance report, capabilities deck, and explainer video tailored to your firm — starts at \$2,500. Delivered in 48 hours. Most clients see ROI in the first carrier they onboard faster. Want to see the sample first?"

TARGETING SEQUENCE — FIRST 30 PROSPECTS

Week 1: LinkedIn Outreach (15 contacts)

Search: "VP Operations" OR "Director of Logistics" OR "Supply Chain Manager"

Filter: Company size 50-200, Industry: Transportation/Logistics, Location: TX, FL, GA, OH (high freight volume states)

Action: Connect + send note → follow up DM day 3

Week 2: Email Outreach (15 contacts)

Source emails from: Apollo.io (free tier), Hunter.io, LinkedIn premium

Sequence: Email 1 → wait 2 days → Email 2 → wait 4 days → Email 3

Track: Opens, replies, link clicks

Week 3: Combine Both Channels

Anyone who opened email but didn't reply → hit on LinkedIn

Anyone who connected on LinkedIn but didn't reply → send email

Double-touch = 3x reply rate

KPI TARGETS (First 30 Days)

| Metric | Target |

|---|---|

| Contacts reached | 50-100 |

| Connection/open rate | 30-40% |

| Reply rate | 10-15% |

| Demo/sample requests | 8-12 |

| Paid conversions | 2-4 |

| Revenue | \$5,000-\$12,000 |

PRICING MENU (For When They Ask)

| Package | Deliverables | Price |

|---|---|---|

| Starter | Compliance Report (PDF, 30+ pages) | \$1,000 |

| Pro | Report + Capabilities Deck (PPTX) | \$2,000 |

| Enterprise | Report + Deck + Explainer Video | \$3,500 |

| Enterprise+ | Report + Deck + Video + Social Pack | \$4,500 |

| Retainer | Monthly updates + 1 new asset/month | \$1,500/mo |
