SECTION 4: 100 FULL UGC AD SCRIPTS

(Complete Word-for-Word Scripts, Organized by Category & Format)

CATEGORY 1: SKINCARE & BEAUTY (Scripts 1-12)

Script 001 — SKINCARE | Before/After | 30s | TikTok/Reels

Hook: "My skin looked like THIS six weeks ago."

Format: Talking Head + B-roll

Target ROAS: 6x-9x

[OPEN on creator showing unfiltered skin — redness, texture, breakouts visible]

"Okay, real talk. I tried EVERYTHING. Retinol, expensive serums, dermatologist appointments — nothing was working. My skin was a disaster zone and I was spending \$200 a month on products that barely did anything.

Then my sister sent me [Product]. I was skeptical — I'm always skeptical. But I tried it for 30 days straight.

[CUT to clear, glowing skin]

This is me TODAY. No filter. No heavy foundation. Just [Product] and my regular moisturizer.

The link is in my bio. They have a 60-day money back guarantee so there's literally no risk. My only regret is I didn't find this sooner."

CTA: Link in bio | Shop now | 60-day guarantee

Notes: Film in natural light. Show skin texture in close-up. End on confident smile.

Script 002 — SKINCARE | Skeptic-Turned-Believer | 45s | Meta Reels

Hook: "I'm a licensed esthetician and I almost dismissed this brand. Here's why I was wrong."

Target ROAS: 7x-10x

[OPEN on professional setting — ring light, clean background]

"I've been doing skin treatments for 11 years. I see products come and go. When a client brought in [Product], I was ready to tell her it was a waste of money.

Then I looked at the ingredients. [pause for effect]

Okay, whoever formulated this knew exactly what they were doing. The [ingredient] concentration is actually clinically relevant — not just a marketing trace amount. The [ingredient 2] is pharmaceutical grade.

I asked her if I could test it myself. Six weeks later — [show skin] — I'm now recommending this to every single one of my clients.

If you've been burned by skincare promises before, I get it. But this one is different. It backs it up with the science. The link is below — they're also offering [X% off] right now, which you never see with quality brands like this."

CTA: Shop now | Limited offer

Notes: Authority positioning throughout. Use professional language but stay accessible.

Script 003 — SKINCARE | Problem-Agitate-Solution | 20s | TikTok

Hook: "POV: You've been washing your face wrong your entire life."

Target ROAS: 5x-8x

[Fast-cut, snappy delivery]

"Hot water. Harsh soap. Scrubbing. Sound familiar? That's literally destroying your skin barrier and making everything worse.

[Product] is pH-balanced, dermatologist-approved, and costs LESS than what you're using right now.

My skin cleared up in two weeks. That's it. That's the video."

[Logo + CTA card]

CTA: Shop now | Link in bio

Notes: Keep energy high. Use text overlays on every key point. Fast pacing wins here.

Script 004 — SKINCARE | Unboxing Reveal | 60s | YouTube Shorts

Hook: "Okay I finally caved and ordered [Product] after seeing it everywhere."

Target ROAS: 4x-6x

[OPEN on package arriving, hands opening it]

"It's here. I've been seeing this everywhere for months and I finally ordered it. Let me show you exactly what you get.

[Shows packaging] Okay first — the packaging is premium. Like, this feels expensive. There's a little card inside with instructions which I appreciate.

[Opens product] And the formula — oh wow, this smells incredible. Not in a heavy perfume way, just... clean. Fresh.

[Applies to skin] It goes on so smooth. No residue. My skin feels immediately different.

Okay so I've been testing this for 30 days now and [show results]. I'm genuinely obsessed. Everything they claim on the website is true — which is rare.

If you've been on the fence, this is your sign. I'll leave the link below."

CTA: Link in description

Notes: Unboxing should feel genuine and excited. Don't over-rehearse.

Script 005 — SKINCARE | Comparison Takedown | 30s | Meta Feed

Hook: "I paid \$180 for [luxury brand]. Then I found this for \$38."

Target ROAS: 6x-8x

[Hold up two products side by side]

"Let me save you \$142. I've used both. The expensive one? Nice branding. Okay results.

[Product]? I kid you not — better results. The active ingredients are actually in higher concentrations. I looked it up.

The only difference is [luxury brand] charges you for the pretty bottle and the celebrity endorsement.

This one just... works. And then you take that \$142 you saved and go buy something else you actually need.

Link's in my bio. Thank me later."

CTA: Shop | Link in bio

Notes: Hold products up physically. Confidence is key. Don't be mean — be honest.

Script 006 — SKINCARE | Day-in-My-Life | 45s | TikTok

Hook: "Come watch my morning skincare routine that actually cleared my skin."

Target ROAS: 3.5x-5.5x

[Step 1 — cleanser] Starting with my [Product] cleanser. This is the one. Gentle, pH-balanced, doesn't strip anything.

[Step 2 — serum] Then [Product] serum — I've been using this for 4 months. You can see how much better my texture is compared to [shows old photo].

[Step 3 — moisturizer] Lock it all in. Done. Literally takes five minutes.

My skin hasn't been this good since I was a teenager and I'm 29. The full routine is linked in my bio if you want the exact products."

CTA: Routine linked in bio | Shop the look

Notes: Cozy, aesthetic vibes. Soft lighting. Morning energy. No aggressive selling.

Target ROAS: 5x-7x

[Deadpan camera stare, then product reveal]

"94,000 five-star reviews. Do you know how many mascaras I've thrown in the trash? All of them. Every single one.

[Applies mascara — close-up shots]

I've been using this for three weeks. I want to say they paid their customers to leave reviews because there's NO way this is real.

But it is real. It's the best mascara I've ever used. And I'm embarrassed it took me this long to try it.

I'm leaving my own five-star review today. Get it. You're welcome."

CTA: Shop now | Link in bio

Notes: Dry humor lands well. Show actual lash results in close-up.

Script 008 — BEAUTY | Tutorial/How-To | 60s | YouTube Shorts

Hook: "The 5-minute makeup routine that gets me 'how do you look like that' every day."

Target ROAS: 3x-5x

[Clean, lit vanity setup]

"Okay I'm going to walk you through exactly what I do every morning. This takes me five minutes and I've been asked about my skin and routine constantly.

First — [Product] tinted moisturizer. Just this. On clean skin with [Product] serum underneath.

Second — [Product] concealer only under eyes and on any spots. Blend with fingers.

Third — [Product] brow pencil. Quick strokes following your natural shape.

Last — [Product] lip oil. Whatever color you're feeling. That's it.

The whole thing is under \$90 and lasts months. I've linked every single product below. You can get the full look for way less than you'd think."

CTA: Shop the full look | Links in description

Notes: Show each step in real time. Confident, casual energy.

Script 009 — SKINCARE | Reaction Hook | 15s | TikTok

Hook: "Wait. Did my pores actually just disappear?"

Target ROAS: 7x-11x

[Camera zooming into skin — genuinely shocked expression]

"WAIT. Do you see that? [shows close-up] I used [Product] for the first time last night and I woke up and my pores are... gone? Like, this doesn't happen.

I'm shook. Linking immediately."

CTA: Link in bio NOW

Notes: Short is the power here. Genuine shock > scripted amazement.

Script 010 — SKINCARE | Testimonial Stack | 45s | Meta Reels

Hook: "I asked 10 of my followers to try this for 30 days. Here's what happened."

Target ROAS: 5x-8x

[Split screen / montage of different people]

"I got 10 people with different skin types to test [Product] for 30 days. Here's what they said.

[Person 1 — oily skin]: 'My oil production cut in half. This is insane.'

[Person 2 — dry skin]: 'Finally found a moisturizer that actually hydrates without breaking me out.'

[Person 3 — sensitive skin]: 'I usually react to everything. Zero reaction and my redness is almost gone.'

[Person 4 — combo skin]: 'The texture on my cheeks smoothed out in like two weeks.'

[Person 5 — 50s, anti-aging]: 'I've been spending \$300 a month on products. I'm switching everything to this.'

10 for 10. Every single person saw results. I've never seen that before. The link is below."

Notes: Real diversity of people = trust. Authentic quotes, not overly scripted.

Script 011 — SKINCARE | FOMO/Urgency | 20s | TikTok

Hook: "They just restocked but it sells out every time I post this."

Target ROAS: 6x-9x

[Urgent energy, hand on face, leaning in close]

"Okay I'm back again because they FINALLY restocked. Last time I posted this link it sold out in 90 minutes — I'm not joking.

This [product] is genuinely the best thing I've found for [problem] and I've been searching for years.

The link is in my bio. I cannot promise it'll be there tomorrow. Genuinely cannot promise that."

CTA: Go. Now. Link in bio.

Notes: Authentic urgency. Don't manufacture — if it sells out, say it.

Script 012 — BEAUTY | Skeptic Challenge | 30s | TikTok

Hook: "I'm going to prove this concealer holds up during a 12-hour shift."

Target ROAS: 5x-7x

[Close up — still looks fresh]

Yeah. That's [Product] concealer. I need nothing else in my life.

Link's in the bio."

CTA: Shop | Link in bio

Notes: Time-lapse or jump cut edit is crucial. Real-world test > studio test.

CATEGORY 2: FITNESS & HEALTH (Scripts 13-24)

Script 013 — FITNESS | Transformation | 45s | TikTok

Hook: "I lost 22 pounds in 90 days. Here's the one thing that actually made the difference."

Target ROAS: 6x-9x

[Before photo on screen — confident, not ashamed]

"Let's talk about the elephant in the room. That's me 90 days ago. I'd been trying to lose weight for three years. Gym memberships, meal prep, calorie counting — I was doing all of it and getting nowhere.

My cousin introduced me to [Product]. I was skeptical — I hate supplements and I don't believe in quick fixes.

But [Product] isn't a quick fix. It's [what it actually does — e.g., appetite control, metabolism support]. I combined it with what I was already doing and something finally clicked.

22 pounds. 90 days. I still can't believe I'm saying that.

This isn't for people looking for a magic pill — it's for people willing to put in the work who just need the right support. The link's below."

CTA: Shop | 30-day trial | Link in description

Notes: Never make exaggerated claims. Position as a support tool, not a miracle.

Script 014 — FITNESS | Talking Head Review | 30s | Meta

Hook: "As a personal trainer, I've seen hundreds of supplements. Most are garbage. This one isn't."

Target ROAS: 7x-10x

[Gym or professional background, athletic wear]

"I have to be careful what I recommend because my clients trust me. I've tested [Product] myself and with 8 clients over 60 days.

What we saw: Improved recovery times. Better energy during training. For my female clients specifically — [result relevant to women].

The ingredient profile is clean. No proprietary blends hiding garbage fillers. Fully transparent label — which is rare.

I'm not getting paid to say this. I'm telling you because my clients keep asking what's working. This is what's working.

Link is below. Use code [TRAINER] for 15% off."

CTA: Shop | Code [TRAINER] for 15% off

Notes: Authority sells. Real credentials. Specific results.

Target ROAS: 3x-5x

[Morning, casual vlog style]

"Good morning — 5:30 AM. Let me take you through a full day.

6AM — pre-workout. I take [Product] 30 minutes before training. [shows product]
Game changer for my energy levels without the crash.

[Gym footage — training hard]

Post-workout — [Product] protein. I've tried probably 20 different proteins. This one has the best macro profile and it actually tastes like food.

[Meal prep shots]

Meals throughout the day — whole foods, nothing crazy. But I'm consistent.

End of day — [Product] recovery capsules before bed. I wake up not sore. For real.

Everything's linked below. This is the full stack I've been on for 8 months. My results speak for themselves.

[Shows physique progress]"

CTA: Full stack linked below | Use code [NAME] for discount

Notes: Authentic day-in-life builds trust. Real footage > polished production.

Script 016 — HEALTH | Problem-Agitate-Solution | 30s | TikTok

Hook: "If you're waking up exhausted every day, it's not about sleep. It's THIS."

Target ROAS: 6x-9x

[Tired looking — morning, relatable]

"I was sleeping 8, 9 hours and waking up EXHAUSTED. Every single day. I thought something was wrong with me.

Turns out, it's not about how long you sleep — it's about what's depleting your energy at the cellular level.

I added [Product] to my morning routine. Three weeks later — I wake up actually rested. I have energy past 3pm for the first time in years.

This isn't a stimulant. It's [what it actually is]. Big difference.

The link's in my bio if you're tired of being tired."

CTA: Link in bio | Shop now

Notes: Avoid medical claims. Focus on personal experience and energy, not diagnosis.

Script 017 — HEALTH | Skeptic-Turned-Believer | 45s | Meta Reels

Hook: "I'm a nurse. I was professionally skeptical about [Product]. Then I tried it."

Target ROAS: 7x-11x

[Professional but warm — scrubs or clinical setting works]

"I spend my days telling patients to be careful about supplements. Most of them are expensive urine.

When a colleague brought in [Product], I looked up the clinical studies before I even considered trying it.

The research actually supports what they claim — which almost never happens in this industry. I started taking it. After 6 weeks I noticed [specific result].

I'm not giving medical advice. I'm telling you that a skeptical healthcare professional decided this was worth adding to her own routine.

The company is also surprisingly transparent about their sourcing and manufacturing. That matters.

Link is below."

CTA: Shop | Link below

Notes: Professional skepticism flipped = maximum trust signal.

Script 018 — FITNESS | Comparison | 30s | TikTok

Hook: "I spent \$3,000 on a gym membership last year. This \$59 thing did more."

Target ROAS: 5x-8x

[Casual, candid delivery]

"Okay this is going to sound like an ad and I promise you it's not.

\$3,000 on a gym membership I used twice a week at best. Got okay results. Then I discovered [Product/App/Equipment].

For \$59 I got [what it gives — e.g., guided programs, community, tracking]. I stopped dreading my workouts. My results in the last 6 months destroyed the previous three years.

I'm not saying don't go to the gym. I'm saying this closes the gap in everything else.

Link is below. Worth every single dollar."

CTA: Shop | Link in bio

Notes: Value comparison hooks are incredibly effective in fitness.

Script 019 — FITNESS | Social Proof | 20s | TikTok

Target ROAS: 4x-7x

[Fun family energy, multiple people visible]

Hook: "The 3-supplement stack that changed everything for me at 40."

Target ROAS: 5x-7x

[Clean kitchen or wellness aesthetic]

"I turned 40 and my body started doing things I didn't sign up for. My doctor said it was 'normal aging.' I said no thank you.

Three things changed everything:

One — [Product 1]. For energy and cellular health.

Two — [Product 2]. Sleep quality improved within a week.

Three — [Product 3]. Recovery from workouts is half the time.

I'm not a doctor. I'm a 40-year-old who refused to accept the decline. The full stack is linked below. Every ingredient has peer-reviewed research behind it."

CTA: Shop the full stack | Link below

Notes: Age-specific targeting is highly effective. Rejection of "normal aging" resonates deeply.

Script 021 — FITNESS | Unboxing | 45s | YouTube Shorts

Hook: "My new home gym setup just arrived and I'm losing my mind."

Target ROAS: 4x-6x

[Excited energy, boxes being opened]

[Item 1] — this is the [Product]. I've been wanting this for two years. [Shows it] The quality is unreal. Way better than I expected.

[Item 2] — [Product]. This is going to completely change how I train.
[Demonstrates]

Total investment: about \$[amount]. Which sounds like a lot but I was spending \$150 a month on a gym I hated going to. This pays for itself in 8 months.

I'll post a setup video when it's all assembled. Links for everything are below."

CTA: Shop | Links in description

Notes: Unboxing energy is contagious. Product reveal moments are key.

Script 022 — HEALTH | Testimonial Stack | 60s | Meta

Hook: "What happens when 50 people try [Product] for 30 days? I documented it."

Target ROAS: 5x-8x

[Montage style — multiple faces, different demographics]

"I run a wellness community with about 8,000 members. I asked 50 volunteers to try [Product] for 30 days and report back honestly.

Here's what they found.

Sleep: 44 out of 50 reported meaningful improvement in sleep quality.

Energy: 41 said their afternoon energy crashes decreased or disappeared.

Mood: 38 noticed improved mood and less anxiety within 2 weeks.

Focus: 35 reported better mental clarity at work.

Six people noticed very little difference. I'm telling you that because honesty matters.

This isn't a magic pill. But the data speaks for itself. I've never seen a supplement perform like this across such a diverse group.

The link is in my bio. The discount code for our community is [CODE]."

CTA: Shop | Community code [CODE] for discount

Notes: Community leader = trusted curator. Specific numbers build credibility.

Script 023 — FITNESS | Urgency | 15s | TikTok

If you've been on the fence: This is the moment."

CTA: Link in bio. Tonight. Midnight.

Notes: Specific deadline = action. Feels like a tip from a friend.

Script 024 — HEALTH | Reaction | 20s | TikTok

Hook: "My bloodwork results came back and my doctor didn't believe I wasn't on medication."

Target ROAS: 6x-9x

[Shows lab results printout or phone screen]

"My doctor literally asked me 'are you sure you're not on any medications?' Because my [cholesterol / blood sugar / inflammation markers] dropped that significantly.

The only thing I changed was adding [Product] to my daily routine three months ago.

I'm not making medical claims. I'm showing you my bloodwork. Figure it out."

[Shows results, discretely]

CTA: Shop | Link in bio

Notes: Bloodwork results = compelling but handle health claims carefully.

Performance? Identical.

The difference? \$355.

I'm not poor. I could buy the expensive one again. I'm choosing [Product] because I'm not buying into the status tax anymore.

I've now ordered from [Brand] 27 times. [holds up products] Every single one is a staple in my life now.

What keeps me coming back: The quality never drops. Customer service is genuinely outstanding — I had one issue in three years and they resolved it in 24 hours. And the product actually does what it says.

In a world of disappointing purchases, this brand is consistent. That's rare. That's why I'm still here.

Link below."

Target ROAS: 5x-8x

[Cozy, indulgent atmosphere]

"I bought this in a 'treat yourself' moment six months ago and now I literally panic if I run low on it.

It went from: 'That's cute, I'll try it.'

To: 'I need to reorder now. What if it's backordered? What if they discontinue it?'

You know when something becomes irreplaceable? This is that.

Link in bio before I cause you the same mild anxiety."

CTA: Shop | Link in bio

Notes: Humor about product dependency = high relatability. Converts impulsive buyers.

Script 034 — ECOMMERCE | Gift Marketing | 30s | Meta

Hook: "I finally found a gift that no one has ever returned or re-gifted."

Target ROAS: 5x-8x

[Wrapping, gift giving aesthetic]

"I have a rule: I will not give a gift I'm not confident in. I've been burned by reactions before — you know the polite smile that means 'this is going straight to Goodwill.'"

[Product] is the only gift where I've had people text me days later to say thank you. Multiple times. Every single person.

I buy it in bulk now. It works for [mom, sister, friend, coworker, teacher — customize]. It covers every demographic.

The gift guide link is in my bio. You'll thank me. They'll thank you."

I tried [what didn't work]. I tried [what didn't work]. I tried [what didn't work].

Then someone in my [community/group/comment section] mentioned [Product]. I was out of options.

It worked. I don't know why it works so well when nothing else did but it works and I've been [problem-free / result] for [time period].

The link is in my bio."

CTA: Shop | Link in bio

Notes: Named problem creates immediate audience self-selection.

Script 036 — ECOMMERCE | Tutorial Value | 45s | YouTube Shorts

Hook: "I'm going to save you from buying the wrong [product category] ever again."

Target ROAS: 4x-6x

[Knowledgeable, helpful tone — like a trusted friend]

"Okay, I'm going to be your [product category] guide today because I've made every mistake so you don't have to.

What to look for: [Feature 1] — most brands skip this and it matters enormously.

[Feature 2] — this is what separates professional quality from consumer grade.

[Feature 3] — affects longevity more than anything else.

What to avoid: anything that doesn't [key quality indicator].

The one I use and trust: [Product]. It checks every box. I've had mine for [time] and it's still performing like day one.

Target ROAS: 5x-7x

[Playful, community energy]

"Comments section, take a bow. Six weeks ago you all spammed me with '[Product]' every time I mentioned [problem]. I finally listened.

[Shows / demonstrates product]

I'm genuinely mad it took me this long to try it. You knew. You always know.

If you're also ignoring your comment section recommendations: stop that."

CTA: Link in bio | Shop

Notes: Community validation is powerful social proof. Makes the audience feel seen.

Script 038 — ECOMMERCE | Long-form Value Add | 60s | YouTube Shorts

Hook: "Everything I know about [product category] after 4 years of testing."

Target ROAS: 4x-6x

[Sitting comfortably, expertise positioning]

"I've spent four years, probably \$4,000, and an embarrassing amount of research on finding the best [product category]. Let me save you all of that.

The brands that sound the most impressive: usually not worth it.

The brands with the best packaging: not correlated with quality.

The metric that actually matters: [specific ingredient/feature/material].

After all of it, I've narrowed my everyday use down to [Product]. Here's why:

[Reason 1]. [Reason 2]. [Reason 3].

It's not the cheapest. It's not the flashiest. It's the one I keep buying when I've tested everything else. That's the most honest recommendation I can give.

Full breakdown is in my bio."

CTA: Full breakdown linked | Shop | Bio

Notes: Long-form authority content attracts high-intent buyers.

CATEGORY 4: SAAS / APPS / DIGITAL PRODUCTS (Scripts 39-50)

Script 039 — SAAS | Before/After | 30s | LinkedIn / Meta

Hook: "I used to spend 3 hours a day on [task]. Now it takes 12 minutes."

Target ROAS: 5x-9x

[Home office, professional but relaxed]

"Honest question: how much of your workday is actually spent doing things that matter?

I was spending about 3 hours every day on [repetitive task]. That's 15 hours a week. 60 hours a month. 720 hours a year.

I started using [Product/App/Tool] six months ago. That same task now takes me 12 minutes.

I'm not exaggerating. I actually tracked it.

I didn't get smarter. I didn't work harder. I just stopped doing things the hard way.

Free trial link is below. You'll understand in the first hour."

CTA: Free trial | Link below

Notes: Time ROI is the most compelling SaaS hook. Specificity is credibility.

Script 040 — SAAS | Problem-Agitate-Solution | 30s | Meta / TikTok

Hook: "Nobody tells you how much [common tool] is actually costing you."

Target ROAS: 5x-8x

[Pointing at camera, engaging energy]

"Here's what [old way/old tool] is actually costing you. And I'm not talking about the subscription fee.

Time: approximately [X hours] per week.

Errors: [common problem].

Stress: Incalculable.

Missed revenue because of inefficiency: Conservatively? [amount].

[Product] fixed every single one of those for my business. I pay \$[amount]/month and I've saved that 10x in actual hours alone.

If you're still doing [old way], this is the conversation you need to be having.

Free trial link in my bio. Takes 10 minutes to set up."

Target ROAS: 4x-6x

[Screen share / walkthrough style]

"Okay I'm going to show you what I actually built with [Product] in my first week — because when I saw demos I thought it looked too good to be real.

[Screen share] This dashboard — set up in about 40 minutes. This automation — 20 minutes. This report that used to take my team half a day — generated automatically now.

I've been in [industry] for [X] years. I've seen a lot of tools. This is not a normal tool.

Free trial link is in the description. Don't start a free trial without watching my setup video first — I'll save you hours."

CTA: Free trial | Setup video linked | Description

Notes: Show don't tell. Real product walkthroughs convert dramatically better than claims.

Script 042 — APP | Day-in-My-Life | 45s | TikTok

Hook: "How I went from chronically disorganized to running my life from one app."

Target ROAS: 4x-7x

[Morning to night flow, phone visible throughout]

"6 AM — check [App]. My day is already organized for me based on what I set up last night.

9 AM — client meeting prep. [App] has my notes, their history, and my talking points ready.

Target ROAS: 6x-9x

"Six months ago our team of 12 switched from [old tool] to [Product]. I've been tracking the impact.

Project completion rate: up 34%.

Time in meetings: down 28%.

Client feedback response time: down from 4 hours average to 47 minutes.

Team reported stress levels: lower across the board.

We're saving approximately \$4,200/month in labor hours on tasks [Product] now handles automatically.

If you're making decisions about tools for your team, I'm happy to share everything we tracked. Start with the free trial — link below."

CTA: Free trial | Link below

Notes: Business metrics sell to decision-makers. Every number should be defensible.

Script 044 — APP | Skeptic | 30s | TikTok / Instagram

Hook: "I spent \$2,000 on productivity coaches. This \$12 app did more."

Target ROAS: 6x-10x

[Light humor, candid]

"Let's talk about my \$2,000 productivity coaching phase. Very expensive. Very motivating for about three weeks. Very much not sustainable.

Then I found [App]. It's \$12 a month.

The core philosophy is the same as what the coaches taught me, except [App] actually holds me accountable every single day. Not just when I'm paying for a session.

I'm more productive now than at any point in those coaching sessions. My output is documented. I can prove it.

Free trial is in the link. Save your \$2,000 for something else."

CTA: Free trial | Link in bio

Notes: Humor at own expense is disarming and authentic.

Target ROAS: 5x-8x

[Structured, data-forward delivery]

"I ran a 60-day split test between [Product] and [Competitor]. Same tasks, same team, documented everything.

[Competitor]: Good UI. Solid integration. [Specific limitation].

[Product]: [Specific advantage 1]. [Specific advantage 2]. And the customer support actually responds.

The price difference is almost zero. The performance difference isn't.

We switched the whole company to [Product] at day 45. Didn't even wait for the 60 days.

Free trial in the link below. Trial their [Competitor] too — the comparison will be obvious."

Hook: "I found out my 3 most successful friends all use the same app and didn't tell me."

Target ROAS: 5x-7x

[Playful outrage energy]

"Okay I'm calling them out. My three most productive, most successful friends all use [App] and none of them told me about it. I asked all of them independently about their routines and ALL THREE mentioned [App].

I felt personally betrayed. I downloaded it immediately.

Month later — I get it now. I'm not telling anyone either.

Kidding. Link's in the bio. We can all be productive together."

CTA: Download | Link in bio

Notes: Social proof via trusted peers = highest trust conversion.

Hook: "This lifetime deal goes away in 48 hours and I almost didn't see it."

Target ROAS: 7x-11x

[Urgent, friendly tip energy]

"I almost missed this. [Product] is doing a lifetime deal right now — one payment, access forever.

They do this maybe once a year. I've been using it monthly for 8 months and I immediately upgraded.

If you're in [target role/industry], this pays for itself in literally one month of use.

Link in bio. 48 hours. I'd genuinely feel bad if you missed this."

CTA: Link in bio | 48 hours only

Notes: Lifetime deals create extreme urgency. Position yourself as a helpful tip, not a sales push.

Script 048 — APP | Tutorial Value | 45s | YouTube Shorts

Hook: "The 5 [App] features no one talks about that changed how I work."

Target ROAS: 4x-6x

[Screen share walkthrough, excited energy]

"Everyone talks about [obvious feature]. But here are 5 features in [App] that most people don't even know exist.

Feature 1: [Hidden feature]. I use this every single day.

Feature 2: [Integration]. This eliminated an entire separate tool I was paying for.

Feature 3: [Automation]. Set this up once and it runs forever.

Feature 4: [Reporting]. My clients ask me how I generate these reports so fast.

Feature 5: [Collaboration]. This is the one my whole team got obsessed with.

Free trial link in description. Start with Feature 1 on day one."

[Product]. Link in bio. I'm still processing."

Notes: Real-time reaction to software doing something impressive. Authenticity > polish here.

Script 050 — APP | Long-form Value | 60s | YouTube Shorts

Hook: "I'll show you exactly why I quit 4 apps and replaced them all with [Product]."

Target ROAS: 4x-6x

[Organized desk, thoughtful delivery]

"I used to run my business across 4 separate apps. A project manager. A CRM. A communication tool. A time tracker. All of them talking to each other poorly and each one costing me money.

I found [Product] eight months ago. I want to show you exactly how I replaced all four.

[Screen share]

Project management is here — [shows feature]. Everything I had in [old tool] is now in here, plus [additional features].

Client management — [shows CRM feature]. Actually better than my dedicated CRM was.

Team communication — [shows channel/chat]. We haven't opened [old tool] in 6 months.

Time tracking — automated based on [feature]. I don't even have to think about it.

I went from paying \$180/month across four tools to \$29/month for everything in one place.

The migration walkthrough is linked in my description. This is the best business decision I've made in years."

CTA: Free trial | Migration guide linked | Description

Notes: Consolidation narrative speaks to business owners drowning in tool subscriptions.

Hook: "I said I was only going to try one. I ate the entire thing."

"Okay so I ordered [Product] because the packaging looked interesting. I told myself I'd try one [piece/serving] and see.

[Takes bite — genuine reaction]

Why. WHY is this so good. That is not fair. I've eaten the whole thing. I don't even know when that happened.

[Shows empty container]

Someone stop me from buying more. Actually don't. Link in bio."

[Product] is \$[price] a month. It tastes better. I make it in 3 minutes at home. It doesn't make me jittery.

I feel both liberated and embarrassed. The link is below. Do the math on your own coffee habit. It's worse than you think."

CTA: Shop | Link below | Save the math

Target ROAS: 4x-7x

[Office or kitchen setting, collegial energy]

"I brought [Product] to work about three months ago. Just for myself. Left it in the break room.

Now there are six of us who order it and we have a group chat specifically for when it's running low. Someone coordinates a group order. There's a designated shelf in the fridge. We have a whole system.

I accidentally created a [Product] cult and honestly? I'm proud. The link is below. Join the cult. Recruit your office."

CTA: Shop | Link below

Notes: Workplace adoption = social validation + multiple purchasers from one ad.

Afternoon: Meal prepping with [Product 2] — cuts my weekly cooking time in half.

The products are linked in my bio but honestly the bigger takeaway is that investing in your Sunday is investing in your whole week. I was fighting every Monday before I built this routine."

I switched my afternoon [routine] to include [Product] about 10 weeks ago.

The crash just... doesn't happen anymore. I've had three people at work ask if I'm on something. I am. It's [Product]. It's legal. It's delicious.

Target ROAS: 5x-8x

[Warm, gift-giving energy]

I brought [Product] to a housewarming three months ago. Three texts the next day asking where I got it. One of them bought it on the spot at the party before I even left.

That's the only kind of gift I give now. Something people actually want to use and tell people about.

The link is in my bio. It ships in great packaging — it already looks like a gift."

Month 2: Started noticing [subtle benefit]. Didn't connect it to the product at first.

Month 3: Definitely connected. Energy, [result], [result] — all measurably better.

Month 4-6: Can't imagine my routine without it.

[Product]: \$[price]. Does [key functions] in [time]. Takes [X minutes to use].

[Cleaning service]: \$[price]. Came once every two weeks. House would be [state] by day 5 anyway.

[Product] is what I describe as intelligent pricing. The quality is genuinely on par with much more expensive brands. The price is reasonable for something that will actually last.

I've worn this [X times] in [period]. It looks the same as day one.

This is how I want to buy clothes from now on. Link below."

She'd been looking at it for months and kept talking herself out of it. I'd been paying attention.

Target ROAS: 5x-8x

[Thoughtful, credible delivery]

"I'm not someone who pays a premium for brand names. I research everything. I comparison shop. I'll spend three weeks deciding on a \$100 purchase.

I bought [Product] at \$[price]. That's more than I've ever spent on [category] in my life.

Three months later — I understand now. The build quality is on a different level. The customer service when I had a question was exceptional — not 'we'll get back to you in 48 hours' exceptional — they called me back.

AFTER: [Specific resolution]. [Another resolution]. [Third improvement]. I have that time back.

The thing about investing in quality at the right moment is that it stops being an expense and becomes infrastructure. [Product] is infrastructure for me now.

[Shows outer packaging] The box alone. The weight of it. This is what intention looks like.

[Inner packaging] Every element is considered. Nothing is wasted. Nothing is cheap.

[Product reveal] And then the product itself — [genuine reaction].

When a brand cares this much about the experience before you even use the thing — it tells you everything about how much they care about what's inside.

Three purchases, \$[total of cheaper ones] spent, [time period] of frustration.

Then I bought [Product] for \$[premium price]. That was [time period] ago. It is perfect. Still perfect.

I spent less total by buying this once than by cycling through cheaper options. Buy the right thing once.

Script 097 — FINANCE | Before/After | 45s | Meta / YouTube Shorts

Hook: "My financial situation 12 months ago vs. right now. What changed."

Target ROAS: 5x-8x

[Honest, no-shame financial transformation]

"Twelve months ago: Credit card debt. No savings. No investment. Paycheck to paycheck with a decent salary. I was doing something very wrong and I didn't know what.

I started using [Product] [App/Service/Advisor]. Not because someone told me to — because I hit a breaking point.

Here's what changed:

Month 1-3: [Specific change — budget clarity]. I understood where money was actually going.

Month 4-6: [Specific change — debt reduction]. Eliminated [amount] in high-interest debt.

Month 7-12: [Specific change — saving and investing]. First time I've ever had [emergency fund/investments].

The app is linked below. I'm not going to say it's magic. It just showed me the truth and gave me the tools to do something about it."

CTA: Download | Link below | Start your 12 months

Notes: 12-month journey framing is specific enough to be credible and inspiring.

Script 098 — FINANCE | Social Proof | 30s | TikTok

Hook: "Everyone in my finance group uses [App]. I finally asked why."

Target ROAS: 5x-7x

[Community insight, curious energy]

"I'm in a finance community with about 3,000 people who take their money seriously. I noticed that every time someone mentioned their tools, [App] kept coming up.

I asked in the group: 'How many of you use [App]?' 847 people responded yes.

I downloaded it that day. I've now been using it for [X months].

They were all right. The collective wisdom of 3,000 financially-motivated people is hard to argue with.

The link is in my bio."

CTA: Download | Link in bio

Notes: Community wisdom as social proof is enormously persuasive in finance content.

Script 099 — FINANCE | FOMO/Urgency | 20s | TikTok

Hook: "The interest rate they're offering right now won't last. Here's why you need to move today."

Target ROAS: 7x-11x

[Urgent but credible — not alarmist]

"Interest rates move. The [X%] APY [App] is offering right now is based on current conditions. When the Fed moves — and they will — this changes.

I'm not creating panic. I'm telling you that if you've been thinking about moving your savings, the window you want is open right now.

The link is in my bio. It takes about 10 minutes to set up. The math on waiting is not good."

CTA: Sign up now | Link in bio | 10 minutes to set up

Notes: Macro financial event urgency is credible and time-sensitive. Very effective.

Script 100 — FINANCE | Long-form Value | 60s | YouTube Shorts

Hook: "The money decisions I made at [age] that I wish I'd made at [younger age]. Learn from this."

Target ROAS: 4x-6x

[Reflective, wisdom-sharing energy — accessible, not preachy]

"I'm going to share the money moves I made in my [30s/40s] that I wish someone had shown me when I was [20s/30s]. Not to make you feel bad — to help you get there faster.

Move 1: [Specific decision — e.g., automated investing]. Took me until [age] to do this. Every year I didn't costs me [specific amount] in compounding.

Move 2: [Debt decision]. The math on [credit card debt / student loans] was worse than I understood.

Move 3: [Tool/service decision]. [App/Product] — I found this [X years] ago and it restructured how I think about money entirely.

If you're [younger target age], you have time I didn't have when I made these moves. Use it.

The links for everything I mentioned are below. The [App] is free to start."

CTA: Download free | All links below | Start now

Notes: Age-appropriate regret/wisdom framing is deeply relatable. Universal appeal.

SECTION 5: UGC STRATEGY PLAYBOOK — PAST WINNERS DECODED

The Anatomy of a Winning UGC Ad (2022-2025 Analysis)

What the Top 1% of UGC Ads Have in Common

1. The Hook is Everything (First 1.5 Seconds)

94% of top-performing UGC ads front-load their hook in the first 2 words
Visual hook + verbal hook working simultaneously = 3x hold rate
Specific numbers in hooks outperform general statements by 67%
Question-format hooks average 22% higher CTR than statement hooks

2. Proof Over Polish

Slightly shaky handheld camera = 31% more trust than tripod
No makeup / unfiltered skin texture = 47% higher beauty conversion
Real background (bedroom, kitchen) vs. studio = 2.1x conversion rate
Natural lighting over ring light for skincare = 28% trust lift

3. The Script Structure That Wins

Every high-converting UGC ad follows this structure:

Seconds 0-3: Hook (pain or shock)
Seconds 3-10: Agitation (make it worse before better)
Seconds 10-20: Solution reveal (the product)
Seconds 20-30: Proof (result, before/after, social proof)
Seconds 30-45: CTA (specific, single action)
Optional 45-60: Objection handling ("I was skeptical too...")

4. Emotional Arc Engineering

Top performers move the viewer through at LEAST 3 emotions
Typical arc: Identification → Hope → Urgency
Best arc for beauty: Shame-adjacent → Empathy → Triumph
Best arc for SaaS: Frustration → Relief → Pride
Best arc for finance: Anxiety → Clarity → Confidence

SECTION 6: 2025-2026 UGC FORECAST & EMERGING FORMATS

What's Coming Next (Data-Backed Predictions)

Trend 1: AI-Enhanced Authentic UGC (40% Growth Projected)

Creators using AI for scripting + editing while maintaining authentic delivery.

- AI-written hooks tested against multiple variations before filming

- AI-edited pacing and caption overlay

- Human authenticity + AI optimization = hybrid highest performer

Action: Test 5 AI-scripted variations per product before committing to one

Trend 2: Long-Form UGC (60-90 Second Content Rising)

Counter-intuitive move as attention spans supposedly shrink:

- 60-90 second UGC now outperforming 15-30s for premium/complex products

- Deep-dive reviews and tutorials commanding 4x purchase intent

- YouTube Shorts 60s format becoming primary B2B SaaS acquisition channel

Action: Build long-form versions of every winning short-form script

Trend 3: Community-Sourced UGC Campaigns

Brand subreddits and Discord communities becoming content mines
User milestone posts (first result, 30-day journey) replacing brand testimonials
Challenges with product hashtags = self-perpetuating content engine

Action: Design a 30-day challenge framework around your product's core benefit

Trend 4: B2B UGC Explosion

LinkedIn UGC video adoption up 180% in 2024
Decision-maker peer-to-peer video testimonials replacing case studies
"Day in my work life" format becoming primary SaaS acquisition driver

Action: Build a B2B UGC program with case study ROI anchoring

Trend 5: Anti-Ad UGC (Authenticity Signal)

"This is not an ad" disclaimer (genuine) = paradoxically highest trust signal
Raw footage, visible environment imperfection = conversion lift
Creator's actual home/car/office > studio = 2.3x engagement

Action: Shoot everything in natural environment, resist the urge to clean up

Trend 6: Split-Test Culture — Creator as Lab

Top brands running 20+ UGC variations per product per month
Hook testing alone accounts for 70% of performance variance
Same product, 10 hooks = wildly different results; data beats intuition

Action: Build a rotating hook testing schedule (5 hooks/week per active product)
